### Notes:

Mounting kits are made of steel with wet applied enamel paint. If the heater is installed on a structure that is to be transported, provide additional support for the heater during transit. The suspended weight should not exceed 300 lbs (136 kg).

### How To Order:

When ordering mounting kits, specify the type of kit required and the basic model of the heater to be mounted.

\* Not suitable for models - HP 30, FR 30, HP 36, FR 36, or Tandem AH Series (24B fan configuration).
